

Lessonopoly

Silicon Valley is a global leader in using technology that enables companies to deliver innovative products to users that improve performance and productivity. The same should be true for enhanced learning in schools. Silicon Valley Education Foundation (SVEF) offers Lessonopoly, an open source tool with high quality, standards-based, lesson plans, to spur teacher collaboration and facilitate effective teaching strategies.

More than 10,000 Lessons

Lessonopoly is an effective and free classroom resource designed with extensive input from educators. SVEF partnerships with the National Science Foundation and NBC Learn bring high quality lessons to any teacher at any school. Now, educators have the tools necessary to plan, manage and share learning activities in their classrooms.

With over 10,000 quality lesson plans for every core curriculum area by grade, Lessonopoly puts powerful resources at the fingertips of teachers. By using Lessonopoly, teachers can share strategies and lessons that they have found effective.

Innovative, Standards-Based Curriculum

- Get Ready to Read! (*National Center for Learning Disabilities*)
- Science of the Olympic Winter Games (*NBC Learn*)
- Science of NFL Football (*NBC Learn*)
- Smart Skies (*NASA*)
- Stepping Up To Algebra (*SVEF*)
- Stepping Up To Science (*SVEF*)
- Sustainability Unit (*AdVENTURE STEM program, San Jose, CA*)

Key Educational Benefits

- Access to high quality, standards-based lesson plans organized by subject and grade
- Ability to organize and store lesson libraries and plan school-year curriculum
- Effective tool for creating, sharing and searching for lesson plans
- Collaboration with other educators
- Easy way to exchange innovative teaching methods and learning resources

“Lessonopoly is such an incredible tool for teachers who have innovative lesson plans and a gold mine for those teachers searching for resources to use.”

— Rob Curry, Piedmont Middle School, San Jose, CA

Elevating Student Achievement

Lessonopoly can be viewed at www.lessonopoly.org. Funding is provided by Cisco Systems, JPMorgan Chase Foundation and other organizations in addition to individual donors.

Silicon Valley Education Foundation is a non-profit resource and advocate for students, educators, and corporate and individual donors. We drive scholastic achievement in the critical areas of math and science by combining resources and partnerships to provide innovative academic programs. We are a catalyst for policy solutions in public education. Our mission is to make Silicon Valley the leader in academically prepared students.
