

2017 SPONSORSHIP OPPORTUNITIES

GRAND WINE TASTING

Hosted in collaboration with the Santa Cruz Mountains Winegrowers Association (SCMWA), the Silicon Valley Wine Auction (SVWA) attracts more than 1,000 guests annually, helping raise critical funds in support of public education throughout Silicon Valley. Proceeds raised directly support SVEF's STEM education initiatives, impacting thousands of local public school students and teachers.

The multifaceted auction includes a Grand Wine Tasting featuring over 50 vintners from the Santa Cruz Mountains paired with epicurean delights and over 200 silent auction lots.

Since 2008, SVEF has successfully operated Elevate [Math], each year adding to the effectiveness of the program through improved curriculum development, technology integration, progress assessments, placement procedures, and on-going partnerships. To date Elevate [Math] has served over 8,500 students at risk of falling off of the path to college and provided CCSS aligned professional development to over 434 teachers. Specifically, this past summer, Elevate [Math] served almost 2,000 students – 70% of which were low-income and 89% of which are students of color.
