7th Grade Update

Science

With the year coming to a close, our focus is on preparing for the AP Seminar. We have started working on our research proposal, which will be due in a few weeks. Our final project is also in progress, and students are working on their individual research topics.

8th Grade Update

Science

Upcoming projects include a biome project and a chemistry project. Students are also working on their AP Seminar research proposal and preparing for the final project.

9th Grade Update
